FMVSS 2 : NR

Description of the Safety Risk : The light could overheat resulting in a fire.

Description of the Cause : The cause has not yet been determined

Identification of Any Warning that can Occur : We are unaware of any warning signs at this time investigation is still ongoing.

Supplier Identification :

Component Manufacturer

Name : Dehco inc

Address : 58263 Charlotte ave

Elkhart 46517

Country : NR

Chronology :

June 24, 2016 Heartland received information from a dealer claim concerning a fire that had occurred on the front cap at the LED light.

On 7/18/16 one of our companies' Cruiser RV received information concerning a fire on the front cap with the same LED light. On 7/21 Heartland determined that there was a concern and agreed to proceed under the determination that this could be a safety concern and called the Vendor for meeting. The RV in question was returned to the factory for testing and on 7/28 a meeting with Dehco the Light supplier was held.

Description of Remedy :

Description of Remedy Program : Dealers will replace the light with a different light which has built in voltage protection.

How Remedy Component Differs from Recalled Component : Different type and style of light with built in voltage protection.

Identify How/When Recall Condition was Corrected in Production : as of 7/25/16 the light has been removed from production or the inventory has been held pending the determination and outcome of our investigation.

Recall Schedule :

Description of Recall Schedule : NR
