Description of the Cause : Incorrect tires spec'd for unit with Baja option

Identification of Any Warning : NR
that can Occur :

Supplier Identification :**Component Manufacturer**

Name : NR
Address : NR
NR
Country : NR

Chronology :

10-10-2016 Dealer contacted Jayco that new delivery of camping trailers with Baja option had tire issue... inside tire wall rubbing on wheel wells - Operations inspected same product at Jayco manufacturing facility and confirmed reported issue. 10-11-16 Operations stopped install of the LT235/75R15 tires on camping trailers with Baja Option and submitted change order for LT215/75R15 size tires. EDIT 10-26-16 testing of units on site w the new tires did NOT remove the issue.. decision made to change remedy - tires will not be changed.. but a new axle will be installed(same size but 70"hub face ILO 68.31") and both wheel wells replaced.

Description of Remedy :

Description of Remedy Program : Jayco Dealers will replace the 2 tires(with rims) and 1 spare(with rim) on the affected units at no charge to current owner and Jayco will reprint Federal Id and tire labels to reflect the change of tires and enclose with recall notification letter. EDIT 10-26-16 Remedy was revised to changing the axle and wheel wells and labels

How Remedy Component Differs from Recalled Component : size of tire incrt LT235/75R15 correct tire is LT215/75R15 EDIT 10-26-16 tires will NOT change - A new Axle and Wheel wells will be installed

Identify How/When Recall Condition was Corrected in Production : 10-11-Production stopped install of the LT235/75R15 on camping trailers with Baja option... ECN submitted 10-13 noting correct tire as LT215/75R15 for next run of camping trailers with Baja Option - ECN revised to show only axle change

Recall Schedule :

Description of Recall Schedule : Upon approval and receipt of recall number, Jayco is prepared to release recall

Planned Dealer Notification Date : NOV 18, 2016 - NOV 18, 2016

Planned Owner Notification Date : NOV 18, 2016 - NOV 18, 2016
