Description of Defect :

Description of the Defect : The in Dash Radio with AM/FM CD/DVD/ and Back up Monitor installed in certain model 2016-2017 Conquest Class C motor homes and B Touring Cruiser Class C motor homes manufactured by Gulf Stream Coach, Inc. ("GulfStream") the Telematics have not been restricted while the vehicle is in motion. Certain State Laws allow the use of active monitors, while the majorities (73%) of the State Laws restrict the use of an active video monitor while the vehicle is being driven.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : Operating the vehicle with an active monitor in the driver's line of sight may be a distraction to the driver causing unsafe operating conditions which could result in a crash causing property damage and/or personal injury.

Description of the Cause : Radio selected for installation was intended to be used for the purposes of providing a back up monitor for the driver. The built in DVD player wiring was inadvertently overlooked to provide restricted viewing by the driver of the vehicle while the vehicle is in forward motion.

Identification of Any Warning that can Occur : Unrestricted video monitor when DVD disc inserted into the DVD player/ dash radio.

Supplier Identification :

Component Manufacturer

Name : Way Inter Global
Address : 3403 County Road 6 East
Elkhart INDIANA 46514
Country : United States

Chronology :

Gulf Stream Coach, Inc was contacted by a Gulf Stream Coach independent dealership questioning the fact that the DVD player was active while the vehicle was in motion. In the State this dealer is located restricts the driver of a motorized vehicle to view an active monitor while the vehicle is in motion. Upon further review, Gulf Stream Coach, Inc. identified that there are several states in the United States which restrict the driver from viewing an active monitor (73%) of the States restrict the use of an active monitor in the line of sight of the vehicle driver.

Description of Remedy :

Description of Remedy Program :	Gulf Stream Coach, Inc. Independent Dealers and Retail owners of vehicles affected will be provided with written instructions of how to properly wire the DVD player to disabled/ restrict the DVD monitor when the vehicle is bring driven in forward motion.
How Remedy Component Differs from Recalled Component :	No components are replaced in this recall as the corrective action to be taken is to disable the active monitor by installation of a single wire to the emergency brake negative wire, and disabling the DVD screen logo on the radio monitor when a DVD is inserted into the DVD slot of the radio while the vehicle is in forward motion.
Identify How/When Recall Condition was Corrected in Production :	Gulf Stream Coach, Inc manufacturing/Engineering reviewed the circumstances regarding this Recall with the supplier of the radio to identify the proper corrective action(s). Immediate corrective actions were implemented to contain any affected vehicles within our immediate control.

Recall Schedule :

Description of Recall Schedule : Upon receipt of Recall approval and subsequent Recall reference number and or any modification requests to the initial Defect Report by NHTSA, Gulf Stream Coach, Inc. is prepared to draft and assemble the Dealer and Retail Notification Letters along with the corrective action instructions to be provided for the necessary repair of this condition.
