### Chronology :

Gulf Stream identified the error in processing the Federal Identification Labels during an audit of the labeling process. Federal Identification labels are initiated by utilizing a “configuration” number programmed for printing the Federal Identification Label (Certification Weight Label) Inadvertently the incorrect “Configuration” number was initiated in lieu of the correct “configuration’ number.

Review of the Federal Identification label subsequently identified the incorrect configuration number was used inadvertently on the total population of the (9) motor homes identified which were manufactured at Gulf Stream’s production facilities between May 16, 2016 and July 15, 2016. All nine RVs are located in the United States.
