## **New Safety Recall Advanced Communication – S30051116**

FCA US LLC (“FCA US”) announced an equipment safety recall on certain 2012 through 2016 model year (DS / DJ / D2) RAM trucks equipped with an owner purchased and installed Mopar canvas seat cover kit.

Some of the above vehicles may have had a Mopar canvas seat cover kit installed. When installed, the canvas seat covers may impede the deployment of the seat thorax airbag, potentially resulting in delayed or improper deployment of the seat thorax airbag during a crash. A delayed, or improperly deployed, seat thorax airbag during a crash could increase the risk of front seat occupant injury.

FCA US will conduct a voluntary equipment safety recall to have the seat covers removed from all vehicles. The seat covers can be returned to the point of sale for a full refund of the purchase price.

Dealers will be notified of the launch of this safety recall by way of established methods used in the past.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries on involved vehicles.
