RE: Stop Sale/Safety Recall: 2007-2015 Multi-Model Honda Driver's Airbag Inflator VIN UPDATE

On Friday, January 29, 2016, American Honda notified NHTSA of a stop sale and safety recall for approximately 1.7 million model year 2007-2015 Honda vehicles. Due to this, the following models are subject to a **recall** and **stop sale order** in all regions of the United States and US territories:

2007-2011 CR-V  
2011-2015 CR-Z  
2010-2014 FCX  
2009-2014 Fit  
2010-2014 Insight  
2007-2014 Ridgeline

As of today, February 15, 2016, affected VINs have been determined and vehicle eligibility can be confirmed through VIN status inquiry. Any unsold vehicle shown to be eligible for service bulletin 16-016 will need to remain on stop sale until the vehicle is repaired. Vehicles that no longer show as eligible for the bulletin can be sold without further action, assuming no other open recalls apply. Customer-facing sites ([www.recalls.honda.com](http://www.recalls.honda.com), [safercar.gov](http://safercar.gov)) have also been updated with the list of eligible VINs, which may drive inquires about eligibility or repair. At this time, replacement parts to repair the recall condition are not available.
