RE: Stop Sale/Safety Recall: 2005-2016 Multi-Model Acura Driver's Airbag Inflator VIN UPDATE

On Friday, January 29, 2016, Acura notified NHTSA of a stop sale and safety recall for approximately 530,000 model year 2005-2016 Acura vehicles. Due to this, the following models are subject to a **recall** and **stop sale order** in all regions of the United States and US territories:

2013-16 Acura ILX
 2007-16 Acura RDX
 2005-12 Acura RL
 2009-14 Acura TL
 2010-13 Acura ZDX

As of today, February 15, 2016, affected VINs have been determined and vehicle eligibility can be confirmed through VIN status inquiry. Any unsold vehicle shown to be eligible for service bulletin 16-010 will need to remain on stop sale until the vehicle is repaired. Vehicles that no longer show as eligible for the bulletin can be sold without further action, assuming no other open recalls apply. Client-facing sites (www.recalls.acura.com, safercar.gov) have also been updated with the list of eligible VINs, which may drive inquires about eligibility or repair. At this time, replacement parts to repair the recall condition are not available.
