Dear «Owner_name»,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2016 Sprinter Model 353DEN. As a result, Keystone RV is conducting a safety recall.

***Reason for
this recall***

It has been decided the vehicles in this recall population may have been manufactured with a Haier 55" Model 55E2500 TV that can break off of the wall mounting inside the vehicle. If the TV breaks loose from the wall while person is nearby, it will lead to an increased risk of personal injury. The vehicles included in the recall are:

2016 Sprinter – Model 353DEN – Serial Number Range: G1531256 - G1532068

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. **Important:** If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery. The unit VIN(s) our records indicate are presently in your inventory or have been sold are as follows:

«VIN1» «VIN2» «VIN3» «VIN4»
«VIN5»

-- Serial numbers with '*' have been retail sold --

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Attached is a copy of the Safety Advisory #16-247, which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the attached Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANY
