

T-REX DEALER SAFETY NOTICE

RECALL NOTICE

16V-104

TO: All Dealers,

Campagna Motors has identified a potential safety concern on some 2013-2015 T-REX 16S. An official recall to address this issue is being initiated effective February 23rd 2016.

On certain vehicles, the steering column is potentially installed incorrectly. The steering column connection could have been installed incorrectly causing an offset with the steering rack. With time, the steering column shaft could potentially disconnect from the steering rack causing a loss of control and increasing the risk of a crash causing injury and/or property damage.

Owners will be notified by mail about the recall and will be instructed to proceed with you or a local mechanic. There is no cost to owners for this recall.

Dealers or experienced mechanics will take some measurements to determine if the problem is present. Instructions for the measurements and, if applicable, adjustment are included.

Please be reminded that it is a violation of Federal law for you to sell or lease the T-Rex covered by this notification until this recall has been performed. Substantial civil penalties apply to violations of this law.

Your assistance with this recall is appreciated. Should you have any questions or concerns, please contact Ben Gillis at 450-641-2112 ext 222.
