

Important Recall Campaign Information

Date: April 05, 2016

Attn: Dealer Principal/General Manager/Service Manager/Parts Manager

Subject: Recall Campaign 142: 2016 Tucson Trailer Hitch Wiring

What You Need to KNOW

Hyundai has recently announced, but not yet launched, a safety recall related to the trailer hitch harness control module on certain Model Year 2016 Tucson vehicles equipped with an accessory trailer hitch distributed by Hyundai Motor America.

For vehicles with this accessory installed, when the vehicle's engine is running and the brake lights are illuminated, if the turn signal is activated the trailer's turn signal lamp may either:

- a) Remain continuously illuminated (not flash), or
- b) Turn off.

This recall has been posted to the NHTSA website, and you may receive phone calls from customers with questions regarding this matter.

Hyundai Motor America will notify all owners of the vehicles described above to return their vehicles to their Hyundai dealers for repair. Customer notification letters of the recall campaign are scheduled to be mailed in early May, 2016.

We are currently making preparations to implement the recall remedy. A Technical Service Bulletin will be provided when the remedy is available.

What You Need to DO

- Inform your Dealership Campaign Recall Team of the upcoming campaign.
- For any customers that are currently experiencing a concern related to this campaign, please call the Hyundai Techline for the latest instructions. Please make sure the customer understands that any interim repairs performed will NOT be considered a campaign completion. Once the campaign remedy is announced, the customer will have to return for final repair.

Thank you for your prompt attention to this important safety matter and continued commitment to taking care of Hyundai customers.
