Date: April 15, 2016

Subject: Stop Delivery Order for Upcoming Safety Recall 15822
Involved Vehicle List Revised – Discard Previous Vehicle List

Models: 2014-2015 Chevrolet Silverado 1500 Series
2014-2015 GMC Sierra 1500 Series

To: All Chevrolet and GMC Dealers

STOP DELIVERY ORDER

INVOLVED VEHICLE LIST REVISED – DISCARD PREVIOUS LIST

On April 11, 2016, a stop delivery order was sent to all Chevrolet and GMC dealers via GM Global Connect Message #GCUS-3-502. Attached to that message was a list identifying the involved U.S. vehicles. We have confirmed that many of the vehicles identified on the list may no longer be in dealership's new vehicle inventory.

Attached to this message is a revised involved vehicle list for this stop delivery order. Only the vehicles identified on this new list are involved. Please discard all copies of the original list.

Until further instructions are received, the involved vehicles identified on this list that are in dealers' possession must be held and not delivered to customers, dealer-traded, released to auction, used for demonstration purposes or any other dealer use.

The Investigate Vehicle History (IVH) screen in the Global Warranty Management (GWM) system will be updated tomorrow.

We sincerely apologize for any confusion this programming error may have caused.
