

**\*\*IMPORTANT SAFETY RECALL\*\***

May 2, 2016

Attention: Warranty Manager

Due to the possibility that the axle on your recreational vehicle was placed incorrectly, Riverside RV is issuing a recall notice for the affected units. Below you will find the details of the defect information:

Model: Retro Travel Trailers Model 176S and 176FK

Manufactured Dates: September 1, 2015 thru January 31, 2016

Defect: Incorrect Axle Placement may cause tires to rub increasing the chance of a tire blow-out

Below you will find a list of units that affected by this recall. Please email or mail a picture of the serial number of the axle on each unit listed below to Laura Kay Meyers at [warranty@riversidervs.net](mailto:warranty@riversidervs.net). Riverside will then ship a replacement axle for any unit that is found to be affected. Please contact Laura Kay at (260)499-4578 Ext 110 with all questions regarding this recall.

Below is a list of units that we show still at your sales center that may be affected:

|         |   |      |
|---------|---|------|
| 59CCC18 |  | 176S |
| 59CCC18 |  | 176S |

Thank you,  
Mervin Lehman  
General Manager
