***** **Parts update** *****

The purpose of this update is to inform dealers that select parts are now orderable on DCS as an SVC order type. Automatic shipments will no longer be provided for part numbers once they are available for order on DCS.

Dealers should place orders, **as needed**, on DCS. Orders will be filled as parts are available on a first in, first out basis. Dealers will need to enter a VIN for each order with a maximum order quantity of 1 part per VIN. Dealers should ensure that the correct part number is ordered for each VIN. If the part that is ordered is not for the VIN provided then the order will be **REJECTED**. Only the parts listed as available on DCS will be processed.

Nissan is working towards adding additional part numbers on the DCS system for SVC ordering and will issue announcements as additional part numbers are added. Automatic shipments will continue for OCS parts not available for order on DCS.
