**SUBJECT: RECALL CAMPAIGN #160429REV  
2016-2017 Holiday Rambler Endeavor & Endeavor XE  
Front Passenger's Side Tire Clearance**

REV Recreation Group, Inc., on behalf of its manufacturing center located in Decatur, Indiana, is requesting your assistance in conducting a voluntary recall notification campaign in accordance with the United States National Traffic and Motor Vehicle Safety Act.

REV Recreation Group, Inc., has decided that a safety defect relating to motor vehicle safety exists in certain model year 2016-2017 Holiday Rambler brand Endeavor and Endeavor XE, Class A motor homes. We are notifying the owners of the affected units in order to correct the problem. A copy of the letter sent to owners of record is attached for your information.

### ***WHAT IS THE PROBLEM?***

On motor homes affected by this recall, a diagonally-oriented section of tube steel in the wheel-well skirt framing has the potential to contact the front passenger-side tire, or force the front passenger-side mud flap into contact with the tire.

Contact of the mud flap or the tube steel with the front passenger side tire may result in excessive tire wear or restricted steering and loss of handling, posing the risk of a tire blowout and/or a crash.

### ***WHAT SHOULD YOU DO?***

Owners of the above mentioned motor homes have been asked to contact an REV Recreation Group dealer to have the described defect remedied. In the event that you are contacted by a customer, please verify eligibility by referring to the serial number range listed in the attached ***Recall Service Bulletin #160429REV*** prior to beginning repairs.

Once repairs are completed, have the customer sign your dealership's ***Internal Repair Order***. Warranty labor claims are to be submitted electronically to REV Recreation Group. Customers will not be charged for these repairs.

Any vehicle lessor receiving this recall notice must forward a copy of the notice to the lessee within ten days.**
