May 2016

**IMPORTANT SAFETY RECALL**  
**NHTSA Recall Campaign # 16V-304**

Dear Valued Jayco Dealer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Jayco has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2016 Jay Flight SLX travel trailers manufactured at the Jayco Idaho facility from March 3, 2016 through April 20, 2016. The affected units may have a propane tank that is not properly secured to the iron rails of the A-Frame and may become loose and detach from the trailer while it is moving, increasing the risk of a crash.

The recall remedy is to add a lock washer to each bolt (2) that secures the tank to the iron rails. In addition to the lock washers (2), The Recall Parts Kit will provide replacement bolts and nuts to cover any voids in the hardware required to properly secure the propane tank. All pertinent recall documents are available under the Service and Parts Tab on Jayco Partners.

Our records show the following units are affected by this recall and are currently part of the inventory at your dealership and require the Recall repair prior to being sold:

Serial Number Listing

**Dealer Campaign Responsibility**

**Federal law requires that all units in your inventory be repaired prior to delivery to a customer. If you have sold a unit recently that you have received a stock recall notice on, please contact the owner immediately to advise of the recall. In addition, please register the unit by submitting the Warranty Registration information to Jayco.**

If you have any questions, please contact Jayco Customer Service 800-283-8267 for further instructions.

We apologize for any inconvenience this may cause. However, we have taken this action in the interest of our Customers' safety and continued satisfaction with the Jayco Travel Trailer.

Sincerely,  
Jayco Towable Division
