## Infiniti USA Electronic Field Communication

## INFORMATION

**Date:** February 2, 2017

**To:** FOMs, DOMS, and CEMs

**Subject:** **INFORMATION REGARDING ITB17-003 FOR R1622 - Takata Passenger Air Bag Inflator - Voluntary Safety Recall Campaign**

Campaign bulletin, ITB17-003, for R1622 was posted to ASIST this morning. It is not listed in NNAnet. We have asked that the bulletin be retracted. It was released prematurely. We will have an announcement in a few days explaining how R1618 and R1622 have been changed. There have been no changes made to SERVICE COMM from previous campaign announcements.

Campaign R1701, released on Monday, was for a new population of vehicles that were not included in previously announced campaigns.

Please cascade information as necessary.
