

Subarunet Announcement

To: All Subaru Retailers
From: Subaru of America, Inc.
Date: November 15, 2016

UPDATE: TKA-16 Front Passenger Air Bag Inflator Owner Notification (2009 MY Forester models)

As parts supply continues to improve for the Takata recalls, we will be mailing owner notification letters to urge customers to schedule an appointment for the repair. This notification process is being handled in phases, based on parts supply, age of the inflator in the vehicle (oldest first), and geographic registration history of the vehicle.

On November 21, 2016, the next phase of these owner notification letters will be mailed to the owners of affected 2009 model year Forester vehicles with registration history in Zone A as defined by NHTSA.

Affected VIN lists will be distributed to each Zone Office prior to owner notification.

Please be sure to review the latest version of the TKA16 Product Campaign Bulletin as found on STIS for the installation instructions and detailed parts information.

Thank you.
