

Subarunet Announcement

To: All Subaru Retailers
From: Subaru of America, Inc.
Date: February 27, 2017

Subject: Takata Air Bag Inflator Recall – Owner Re-Notification

We are continuing the owner re-notification process for the Takata recalls, in accordance with the vehicle priority group assignments established by NHTSA. The re-notification letters will advise the affected owners that parts are now available, and to schedule an appointment for the repair.

On March 1, 2017, the next phase of owner re-notification will occur for the following affected vehicles:

- TKA16: 2006-2007 model year Impreza (including WRX)
- TKA16: 2006-2011 model year Tribeca
- TKA16: 2010-2011 model year Legacy and Outback

Affected VIN lists will be distributed to each Zone Office prior to these owner notifications.

Please be sure to review the latest version of the applicable Product Campaign Bulletin as found on STIS for the installation instructions and detailed parts information.

Thank you.
