«Country»

Dear «Dealer\_name»,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2016-2017 Dutchmen Kodiak Model 291RESL Travel Trailers. As a result, Keystone RV is conducting a safety recall.

***Reason for  
this recall***

It has been decided the vehicles in this recall population may have been manufactured with 2 separate LED rope lights as back lighting for the countertop that can touch at the unprotected ends. If this condition exists it can lead to an increased risk of fire if an electrical short should occur. The vehicles included in the recall are:

**2016 Kodiak 291RESL, Serial Number Range: GJ970552 – GJ972186**

**2017 Kodiak 291RESL, Serial Number Range: HJ970002 – HJ970025**

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. **Important:** If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery. The unit VIN(s) our records indicate are presently in your inventory or have been sold are as follows:

«VIN1» «VIN2» «VIN3» «VIN4»  
«VIN5» «VIN6» «VIN7» «VIN8»  
«VIN9» «VIN10» «VIN11» «VIN12»

**-- Serial numbers with '\*\*' have been retail sold --**

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Attached is a copy of the Safety Advisory #16-255, which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the attached Safety Advisory, please feel free to contact us.

Sincerely,

**KEYSTONE RV COMPANY**
