<b>Subject</b>	Stop Sale/Safety Recall: 2015-2016 MDX Fuel Tank Leak						

DATE: June 4, 2016

TO: All Acura Sales, Service &amp; Parts Managers and Personnel

FROM: Campaign Administration

RE: Stop Sale/Safety Recall: 2015-2016 MDX Fuel Tank Leak

Yesterday, June 3, 2016, Acura notified NHTSA of a **Safety Recall** affecting 10 units of model year 2015-16 MDX to replace the fuel tank. **Any used units in dealer stock must be repaired per service bulletin, 16-032 Safety Recall: 2015-16 MDX Fuel Tank, prior to sale.** Refer to your eResponsibility report or VIN inquiry to determine which units in your inventory are affected. Acura expects to begin client notification in early July 2016.

Note: Some vehicles affected by this campaign may be in your used vehicle inventory. Failure to repair a vehicle subject to a recall or campaign may subject your dealership to claims or lawsuits from the client or anyone else harmed as a result of such failure. In addition, state law may provide Acura with the right to seek indemnification in any such claim or lawsuit.

**Basic Problem**

Due to a vendor manufacturing error involving plastic welds, a small number of fuel tanks may develop a fuel leak over time. A fuel leak in the presence of an ignition source may increase the risk of a fire.

**Campaign Information**

Service bulletin 16-032, has been posted to the Service Information System as of June 4, 2016, and includes warranty, parts, and repair information related to the recall campaign.

**Parts Information**

Refrain from ordering for parts stock as there are limited vehicles in this campaign. Order a replacement fuel tank only after confirmation that a vehicle repair is needed.

**Warranty and Repair Information**

Warranty and repair information is detailed in service bulletin 16-032.

**Client Notification**

Acura expects to complete initial client notification by early July, 2016.

As always, please be sure to check VIN status inquiry to determine if a particular VIN is affected by this recall.
