New Safety Recall Advanced Communication – S42062916

FCA US LLC (“FCA US”) announced a safety recall on certain 2017 model year (RU) Chrysler Pacifica vehicles equipped with a center third row seat or an optional three passenger second row seat.

Some of the above vehicles may have been built with an overhead seatbelt bezel(s) which may break and trap the seatbelt in the stowed position. This could prevent the use of the seatbelt in the center third row and/or three passenger center second row seating positions. An unbelted occupant could suffer additional injuries and/or become a projectile within the vehicle, injuring other vehicle occupants, during a crash.

FCA US will conduct a voluntary safety recall to replace the seatbelt bezel(s).

Dealers will be notified of the launch of this safety recall by way of established methods used in the past.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries on involved vehicles.
