<b>From</b>	Motorcycle National Field Service						
<b>Subject</b>	RECALL INFORMATION UPDATE: S/B CBR300R/CB300F #1						

Updated August 30, 2016

Please be advised that the customer letters for this campaign began mailing on Friday, August 26. A copy of the letter is available on page 6 of the Service Bulletin. Please review the [Service Bulletin](#) and Customer Letter with your entire dealer staff to ensure awareness and understanding when a customer contacts your dealership.

#### CUSTOMER LETTER KEY POINTS

- Customers have been advised that remedy parts are limited.
- Customers have been advised to contact an authorized Honda motorcycle dealer regarding parts availability and to schedule an appointment.

#### PARTS AVAILABILITY

Parts supply is limited and will continue to be allocated, based upon your sales and inventory of affected units, until it is adequate to release parts on open order. In the meantime, TechLine will have a limited number of crankshaft repair kits to handle customer repairs. If you have a customer's motorcycle in your shop for this recall and have depleted your allocated supply of repair kits, please contact TechLine or your District Service Manager. Please be prepared to provide the VIN and customer name. If inventory allows, an additional kit will be released to your dealership. Once parts supply stabilizes, repair kits will be available on open order.

#### WARRANTY CLAIMS

Upon repair completion, please submit a warranty claim as soon as possible to ensure prompt reimbursement, accurate repair tracking, and flooring credit eligibility as outlined in [Sales Bulletin #16-0248](#).

If you have any questions regarding this recall, contact your Honda District Service Manager.

Thank you for your cooperation.

American Honda Motor Co., Inc.
