IMPORTANT SAFETY RECALL **NHTSA Recall Campaign 16V-538**

Dear Valued Starcraft Dealer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Starcraft has decided that certain Model Year 2016-2017 AR-ONE Maxx travel trailers and fifth wheels manufactured with the ***Extreme Package Option*** fail to conform to Federal Motor Vehicle Safety Standard number 120 “Tire selection and rims and motor home/ recreation vehicle trailer load carrying capacity information for motor vehicles with a GVWR of more than 4,536 kilograms (10,000 pounds)” Effected units were manufactured May 4, 2015 through June 27, 2016. The Federal Id label and Tire Label incorrectly note the tire size as ST225/75R15D or ST205/75R14C when the **correct tire size** on the trailer is “**LT235/75R15C**”. Incorrect tire size could lead to excessive wear and may cause instability in towing of the trailer which could contribute to vehicle crash causing personal injury or property damage.

The remedy is replacement of the current Federal Id Label, Tire Label and when applicable the CSA data sheet, with the correct label showing tire size as “**LT235/75R15C**”.

Our records show the following Starcraft units are affected by this recall and are currently part of the inventory at your dealership and require the Recall repair prior to being sold. The correct labels for the units listed below are included with this letter.
