September 2016

IMPORTANT SAFETY RECALL **NHTSA Recall Campaign 16V-669**

Dear Valued Starcraft Dealer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Starcraft has decided that certain Model Year 2017 AR-ONE Maxx LE 19BHLE travel trailers manufactured August 25 through September 6, 2016 were produced with incorrect information on labels. The Federal Id label and Tire Label incorrectly note the number of axles on the unit as 2 - 2500lb axles when the travel trailer only has 1 - 2500lb axle. This is a data entry error affecting only info on the labels, and is not reflected in the calculation of the GVWR. The GVWR noted is correct.

The remedy is replacement of the current Federal and Tire label with a corrected label showing unit only has one axle at 2500.

Our records show the following Starcraft unit is affected by this recall and currently part of the inventory at your dealership and require the Recall repair prior to being sold. The correct labels for the unit listed below are included with this letter.

Serial numbers

Dealer Campaign Responsibility

Federal law requires that all units in your inventory be repaired prior to delivery to a customer. If you have sold a unit recently that you have received a stock recall notice on, please contact the owner immediately to advise of the recall. In addition, please register the unit by submitting the Warranty Registration information to Jayco.

If you have any questions, please contact Starcraft Customer Service 800-945-4787 for further instructions. All pertinent documents regarding this recall are available on Star Connect under the Service and Parts tab.

We apologize for any inconvenience this may cause

Sincerely,
Starcraft
