Dear «Dealer\_name»,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2015 Keystone Cougar Fifth Wheels and 2015-2016 Keystone Carbon, Fuzion, Impact, Raptor, and Dutchmen Voltage Toy Hauler Fifth Wheels. As a result, Keystone RV is conducting a safety recall.

***Reason for  
this recall***

It has been decided the vehicles in this recall population may have been manufactured with a Christianson Industries ladder that folds up against the unit. The mounting bracket on the ladder could separate from the hinge due to an incorrect weld. There are six hinges on each ladder; the likelihood of all six hinges failing at the same time is remote. If all of the six mounting brackets separate from the hinge, the ladder may pull loose from the vehicle while an individual is utilizing the ladder, leading to an increased risk of personal injury. The vehicles included in the recall are:
