******* UPDATE ON CAMPAIGN, PARTS AVAILABLE FOR ALL REPAIRS *******

On, December 7, 2016, American Honda notified NHTSA of a **Stop Sale** and **Safety Recall** for certain model year 2017 Ridgeline vehicles with all-wheel-drive (AWD) due to a possibility of water intrusion into the rear electrical wiring harness. **Any new or used units** in dealer stock **must be repaired per service bulletin, 16-093, Safety Recall: Rear Wire Harness/Rear Sub-Frame Harness**. Refer to your eResponsibility report or VIN inquiry to determine which units in your inventory are affected. American Honda expects to begin customer notification in late January 2017.

Note: Some vehicles affected by this recall may be in your new or used vehicle inventory. Failure to inspect and, if needed repair, a vehicle subject to a recall or campaign may subject your dealership to claims or lawsuits from the customer or anyone else harmed as a result of such failure. In addition, state law may provide American Honda with the right to seek indemnification in any such claim or lawsuit.
