Subject Odyssey Recall (SB# 16-018) - Ordering Incorrect Parts

Message **PRIORITY NOTIFICATION**

To: All Honda Service and Parts Managers
From: Service Engineering
RE: Odyssey Recall Parts

This message is solely directed to Honda dealership personnel; please handle accordingly.

Background

American Honda (AHM) issued Service Bulletin #16-108 in support of the Odyssey “Second Row (Both Outer) Seats” Campaign. Some dealers are ordering the failed part number instead of the repair kit part number. The correct part number to order is 81360-TK8-305, Seat Rail Bracket and Spring Kit. The Seat Rail Bracket and Spring Kit must be installed to complete the campaign.

If a vehicle was repaired without the Seat Rail Bracket and Spring Kit installed, the campaign is not complete. The customer must be contacted by the repairing dealer to bring the vehicle in to have the repair kit installed.

Thank You
