<b>Subject</b>	Wrong Parts Ordered: 2011-2016 Odyssey Second Row Seats (SB #16-108)
----------------	--

It has come to American Honda's attention that dealers may have ordered the failed part number, seat adjuster 81360-TK8-A01 for the required repair instead of the repair kit part number. Due to these incorrect orders, seat adjusters are currently not available as the excessive orders reduced American Honda's inventory levels.

All orders for seat adjuster part number 81360-TK8-A01 have been cancelled because this part is not required for the repair. Dealers are encouraged to return unneeded parts to American Honda. American Honda expects to receive additional seat adjusters later this month. Dealers can resume ordering for normal service repairs on Monday, January 16<sup>th</sup>.

In support of this repair, please order:

PN: **81360-TK8-305** – Seat Rail Bracket and Spring Kit (includes four brackets and four springs)

Thank you,

American Honda
