1607 South Campus Avenue  
Ontario, CA 91761

Dear Valued Baby Trend Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Baby Trend, Inc. (Baby Trend) has decided that certain Hybrid 3-in-1 LX booster seats fail to comply with the requirements of Federal Motor Vehicle Safety Standard (FMVSS) number 213, "Child Restraint Systems." The affected child seats have a center adjuster rivet that may pull through or break in the event of a crash if the harness is being used with a child weighing more than 40 lbs., increasing the risk of injury to the child. Because we stand by our number one priority of safety, Baby Trend is recalling the child seats listed in the chart below.

Our records indicate that you purchased one of the car seats that may be covered by this recall.

Only the following two models are covered:
