## Re: Can-Am Spyder Coast-to-Coast Accessory Passenger Seat Does Not Activate Pillion Switch

Dear Can-Am® Spyder roadster Owner,

This notice is sent to you in accordance with the requirements of the National Traffic Motor Vehicle Safety Act. BRP has decided that a defect which relates to motor vehicle safety exists on some Can-Am Spyder Coast-to-Coast accessory passenger seat bases P/N 708 001 833 included in P/N kit 219 400 602 for Can-Am Spyder F3 series and is conducting a safety recall.

Our records show that you own a potentially affected product.

### What is the potential problem?

The pillion switch is not activated when a passenger is on the seat. This situation may result in a loss of control and possibly cause injuries or even death.

### What should you do?

- Visit [www.can-am.brp.com](http://www.can-am.brp.com) to determine whether your specific seat needs to be modified.
- If the seat is included in the recall, you need to have the seat modified by an authorized Can-Am Spyder dealership. The dealer will modify the seat by installing an activation stud. This modification will be done at no charge to you and should take less than one hour to perform.
- In the meantime, if you want to continue riding with a passenger, you need to replace the accessory passenger seat with the production passenger seat.

### What to do if you feel this notice is an error?

This notice was mailed to you according to the most current information we have available. If you no longer own this vehicle or some information in this notice is incorrect, please contact BRP at your earliest convenience.

### If you have questions or need assistance, or to find the nearest authorized BRP Can-Am roadster dealer:

- Visit [www.can-am.brp.com](http://www.can-am.brp.com)
  - Or call: 1-888-272-9222
- 8:00 AM to 8:00 PM Eastern time 7 days a week.

Your continued satisfaction with your BRP product is important to us. We have taken this action in the interest of your safety and your vehicle's proper operation.
