NHTSA Recall 16V-056

IMPORTANT SAFETY RECALL

This notice applies to your vehicle: 9999999999999999

Dear JOHN Q SAMPLE,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

WHAT IS THE REASON FOR THIS NOTICE?

Honda has decided that a defect which relates to motor vehicle safety exists in certain 2008-2010 model year Accord vehicles. An internal component in the SRS Electronic Control Unit (ECU) may be susceptible to corrosion, potentially resulting in SRS ECU failure. If the SRS ECU were to fail, the SRS indicator light on the vehicle dashboard would come on to alert the driver of the failure. Nevertheless, the failure could prevent the airbags from deploying when the vehicle is involved in a crash necessitating airbag deployment, increasing the risk of injury.

WHAT WILL HONDA DO?

The dealer will replace the SRS ECU with a redesigned unit, free of charge.

WHAT SHOULD YOU DO?

Call any authorized dealer and make an appointment to have your vehicle's SRS ECU replaced. The complete repair time may take approximately 66 minutes however, please confirm with your dealer the amount of time your vehicle will need to be at the dealership. If you are not the only driver of this vehicle, please advise all other drivers and passengers of this important information!
