

IMPORTANT SAFETY RECALL (#16V-068)

THIS NOTICE APPLIES TO YOUR VEHICLE(S) – SEE VIN(S) IN ANNEX

Saint-Eustache, March 31, 2016

Mr. Joe Customer
Bus Transit
260 Banker road
Plattsburgh, NY
12901

This Notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Nova Bus has decided that a defect which relates to motor vehicle safety exists in certain Nova LFS articulated vehicles equipped with an Allison transmission.

The main power cable within the energy guiding system (EGS), which connect the rear section to the front section, may be incorrectly routed. If the routing of the cables within the EGS is incorrect, the power cable may disconnect resulting in a loss of power to certain components in the front section of the bus, most notably the driver's shift selector. The transmission will default to neutral, which may result in a loss of motive power, increasing the risk of a crash causing injury and/or damage to property.

Vehicles affected by this notification can be identified by their vehicle identification number (VIN). A list of the targeted VINs is annexed at the end of this document.

For vehicles targeted by this recall, Nova Bus will release a document (CR3590E, CR3596E and CR3597E), explaining the inspection and repair procedure. This document is available to you on our web site at <http://www.novabus.com/on-line-services.html>. The necessary replacement parts are available via the Prevost Parts distribution network. Nova Bus will assume the entire cost of the parts, and the cost of labour will be reimbursed. The repairs should take approximately 1.5 hour to complete. If you have previously paid for repairs as a result of this issue, you may be entitled to recovery of those expenses. Submit copies of all documentation supporting your claim according to the rules specified in the "General Plan for Reimbursement of Pre-notification Remedies" provided in this mailing under the heading "Annex A".

Federal regulations require that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days. If you have any questions regarding the requirements of this campaign, please contact your local Nova Bus aftermarket customer service representative.

After contacting your service representative, if you are still not able to have the safety defect remedied without charge and within reasonable time, you may wish to write the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590, call 1-888-327-4236 (TTY: 1-800-424-9153), or go to <http://www.safercar.gov>.
