## IMPORTANT SAFETY RECALL

(NHTSA Recall Number: 16V-387)  
This notice applies to your vehicle: **(Insert VIN)**

July 25, 2016

Dear Kia Sedona Owner:

### **Kia has identified a defect in your vehicle which relates to motor vehicle safety**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Kia Motors has decided that a defect which relates to motor vehicle safety exists in certain 2006-2007 model year Sedona vehicles.

Kia has determined that certain 2006-2007 Sedona vehicles located in states with heavy road salt use require replacement of those front lower control arms due to the corrosion effect of such road salt in damaging such components. Kia had previously had anti-corrosion coatings applied to the front lower control arms of some vehicles as part of Recall No. 13V-550, but it has now decided to have the front lower control arms replaced on all 2006-2007 Sedona vehicles which have not previously had such arms replaced.

Kia is conducting this recall for customers who own 2006-2007 Sedona vehicles originally sold in, or currently registered in, states where heavy road salt is used. Our records indicate that you own or lease one of the potentially affected vehicles.

### **What Is The Problem?**

Corrosion of the front lower control arms may occur as a result of prolonged exposure to road salt. Over time, such corrosion can lead to vibration and/or noise. If allowed to progress over a long period of time without proper inspection and corrective actions, the lower control arms could break, increasing the risk of a crash.

### **Kia Will Conduct the Repair At No Cost For Parts Or Labor To You.**

Kia has advised its authorized Kia dealers to replace both front lower control arms in your vehicle with new ones. The work will be performed at Kia's expense at no cost to you. The estimated time which will be required to repair your vehicle is approximately two (2) hours.

### **What Should You Do?**

- If your vehicle is experiencing front end directional control issues (wobbling), contact Kia Roadside Assistance directly at 800-333-4542(4Kia) to request a tow to the nearest Kia dealer for repair.
- If your vehicle is experiencing significant noise or vibration coming from the front end of your vehicle, immediately have a service technician inspect the front lower control arms of your vehicle to confirm that it is in a safe condition to drive to your Kia dealer.
- In the interest of the safety of your passengers and the occupants of other vehicles, as well as your own safety, please immediately contact your Kia dealer to arrange for the recall repair to be conducted.
- To find your nearest dealer, visit [www.kia.com](http://www.kia.com) and click the "Find Dealer" button in the upper right corner ("Dealers" on a mobile device). You can also use the QR code below with your mobile device to access this information (see the bottom of this letter for more information about QR code use):

- Kia wants you to avoid such safety issues in the future, regardless of which vehicle is involved. For future reference, read the information and follow the instructions in the “Underbody Maintenance” section of your Sedona owner’s manual regarding the ongoing maintenance and cleaning of the underbody of your vehicle to limit the effects of road salt. Please follow these instructions after you have had your recall repair completed.

**What If You Have Already Paid To Have This Situation Corrected?**

If you have incurred expense to remedy this issue prior to the date of this notice, you may have the opportunity to obtain reimbursement for that expense. Please contact the Kia Consumer Assistance number listed below for assistance in submitting your claim, or mail your receipts with a cover letter directly to Kia for review and consideration:

**Consumer Assistance Center  
Kia Motors America, Inc.  
P.O. Box 52410  
Irvine, CA 92619-2410  
1-800-333-4542**

Pursuant to the General Reimbursement Plan issued by Kia pursuant to Federal Regulation 49 CFR 573.13, Kia will use its best efforts to respond to your claim within sixty (60) days of receipt and at that time Kia may either accept or reject that claim or it may request more information to evaluate the claim.

**Have You Changed Your Address Or Sold Your Kia?**

If you have changed your home address, sold your Kia vehicle, or no longer own your vehicle, please complete the attached prepaid “Change of Address/Ownership” card and mail it to us. You can also contact the Consumer Assistance Center phone number listed above.

**What If You Are A Vehicle Lessor?**

**Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.**

**What If You Have Other Questions?**

If your dealer does not respond to your service request in a timely manner, we suggest that you call Kia’s Consumer Assistance Center at 1-800-333-4542. This number has TTY capability. If you still are not satisfied that we have remedied this situation without charge and within a reasonable amount of time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, S.E., Washington, DC 20590; or call the toll free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

This action has been taken in the interest of your safety, and we regret any inconvenience this situation may cause you.

Sincerely,

Consumer Affairs Department

**QR Code Use:**

- A QR Code is a square, 2-dimensional barcode that can be read by mobile devices loaded with an appropriate barcode or **QR Code Reader App**. The app reads the barcode image and then launches/uploads the specific information the code contains, such as URLs, text, photos, videos.
- With a mobile device, **download a QR Code Reader App**. With many devices, you can do this through an app store or marketplace.
- **Open the QR Code Reader App on your mobile device. The app will utilize your device’s camera.** Center the code in the camera viewing area. With some apps, the URL or other information will automatically load when the code is recognized. For others, you may have to snap or take a picture of the QR code. **Refer to the QR Reader Code App instructions.**
