

## IMPORTANT SAFETY RECALL

S51 / NHTSA 16V-401

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxxxxx).

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain **2001 through 2002 model year Chrysler Sebring and Dodge Stratus vehicles.**

***The problem is...*** The passenger sun visor on your vehicle may come in contact with the passenger side airbag during an airbag deployment event if the sun visor is in the lowered position. Depending on the downward angle of the sun visor, the force of the airbag could detach the sun visor from its mount, propelling it rearward towards the passenger seat. This could increase the risk of injury to front seat passengers during an airbag deployment.

Some vehicles may have been repaired under Safety Recall R30 with an incorrect passenger side sun visor tether. The sun visor tether released for Safety Recall R30 was not designed or tested for the 2001 and 2002 model year (ST) Chrysler Sebring and Dodge Stratus vehicles. Vehicles repaired under Safety Recall R30 must also have Safety Recall S51 completed.

***What your dealer will do...*** FCA will repair your vehicle free of charge. To do this, your dealer will install a passenger side sun visor tether strap. The work will take about 1 hour to complete. However, additional time may be necessary depending on service schedules.

***What you must do to ensure your safety...*** Simply contact your Chrysler, Jeep, Dodge or RAM dealer right away to schedule a service appointment. Ask the dealer to hold the part for your vehicle or to order them before your appointment. **Please bring this letter with you to your dealer.**

***If you need help...*** If you have questions or concerns which your dealer is unable to resolve, please contact the FCA Group Recall Assistance Center at either [fcarecalls.com](http://fcarecalls.com) or 1-800-853-1403.
