## **IMPORTANT SAFETY RECALL RVXX1605 NHTSA RECALL # 16V-467**

### **DEAR VOLVO TRUCK OWNER:**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Volvo Trucks North America has decided that a defect which relates to motor vehicle safety exists in certain 2013 Volvo VNL and VNM trucks manufactured from April 16, 2012 through May 4, 2012 with a Meritor FF967 steer axle that was manufactured from March 24, 2012 through April 11, 2012.

**SAFETY DEFECT:** The axle lot may have been improperly heat treated causing a nonconforming metallurgical microstructure. The out of spec hardness of beam FF967 diminishes its life and may lead to fracture.

**SAFETY RISK:** Failure of beam could lead to a loss of vehicle control and a vehicle crash.

**PRECAUTIONS YOU CAN TAKE:** There are no precautions you can take other than having your vehicle inspected and repaired if needed by a Volvo Parts and Service Center.

**TIME REQUIRED FOR THE REPAIR:** The time required to repair your vehicle is approximately two hours.

**WHAT YOU SHOULD DO:** You should contact the nearest Volvo Parts and Service Center and make an appointment. Your vehicle will be inspected and the axle replaced if needed at no charge to you. All Volvo Parts and Service Centers have been sent a bulletin covering all the details required to perform the safety recall.

You can locate the closest Volvo Parts and Service Center by going on line to <http://www.volvo.com/trucks/na/en-us/dealers/> and selecting "Dealer Locator" or by calling our toll-free number: (800) 528-6586.
