Dear «Owner_name»:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Thor Motor Coach (TMC) has decided that a safety defect exists in certain TMC motorhomes based upon notification by Freightliner Custom Chassis (FCCC) that a defect which relates to motor vehicle safety exists in certain FCCC chassis that were used to manufacture your TMC motorhome. FCCC was issued recall 16V-208 by the National Highway and Safety Administration (NHTSA) to remedy this defect. To assist FCCC and NHTSA in identifying the final vehicles manufactured, TMC is also conducting a safety recall. We apologize for any inconvenience this action may cause you; however your safety and continued satisfaction are of the utmost importance to us.

***Reason for
this recall***

It has been decided that certain TMC motorhomes subject to this recall campaign have a defective chassis that the front sway bar mounting bracket may not fit flush on the axle mounting surface, causing the mounting bolts to bend or loosen. Loose mounting fasteners could cause the sway bar to detach, resulting in higher than expected vehicle sway or reduced handling increasing the possibility of a crash.

***What we
will do***

TMC has provided your address and owner information to FCCC to assist them in contacting you and providing you with all of the details available to remedy your vehicle. FCCC will be handling the repair of your vehicle at an authorized FCCC dealer. This will be done for you, the owner free of charge.

***What we need
you to do***

You should have received or will be receiving a recall notice from FCCC regarding this recall and what you need to do to have your vehicle repaired. If you have questions concerning this recall or if you need any assistance, please contact FCCC at 1-800-547-0712 or the TMC Warranty/Service Department at 877-855-2867.
