**Subject: Safety Recall Notice
NHTSA Recall No. 16v-584**

Reason for This Recall

Eldorado National California, Inc. ("Eldorado") decided that a defect which relates to motor vehicle safety exists in certain E-Z Rider II model buses manufactured between March 1, 2016 and July 31, 2016.

Vehicles subject to this recall campaign were manufactured with Accuride (22.50" x 8.25") steel wheels (part number 50307) could cause the inner sidewall of the front tires to come into contact with the front axle tie-rod. This could damage the sidewall of the tire resulting in a rapid loss of air and has a potential for loss of control of the vehicle. This could result in a crash without prior warning.

Other bus models manufactured by Eldorado are not included in this recall.

What We Will Do

Eldorado will provide new Accuride (22.50" x 7.50") steel wheels (part number 29001) to replace the all existing wheels on the bus and any spare tires provided. Eldorado will also reimburse you for the time to perform the work necessary to correct the issue.
