Re: Utility Trailer Kit – Trailer Light Kit Non-Compliance – NHTSA Recall Number 16V-597

Dear Sir or Madam,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Harbor Freight Tools (“HFT”) has concluded that the Haul Master Deluxe 12V Trailer Light Kits (item numbers 93861 and 69624) sold as part of certain HFT utility trailer kits may fail to conform to the requirements of Federal Motor Vehicle Safety Standard No. 108, “Lamps, Reflective Devices, and Associated Equipment.”

Item number 93861 may have an incorrectly positioned rear lamp bracket that may not illuminate the license plate. Item number 69624 may have lenses that are not compliant. If the trailer lights fail to comply with the standard, the trailer may be less visible to other drivers, increasing the risk of a crash.

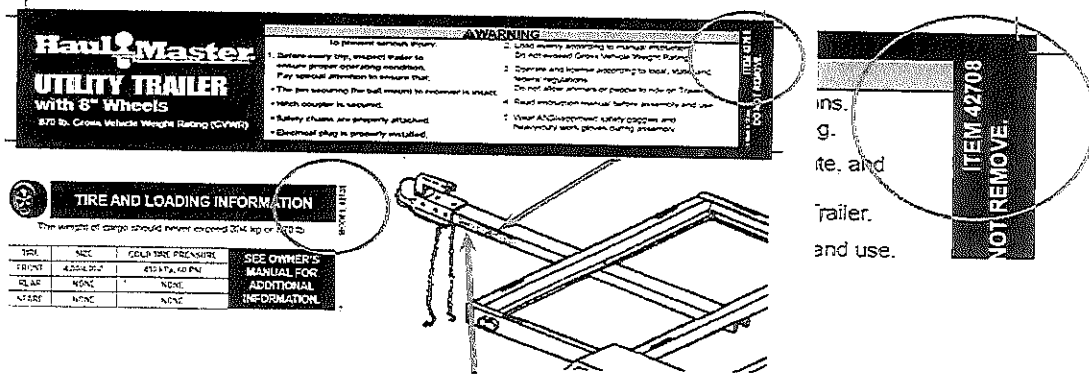

The following utility trailer kits were sold with trailer light kit 93861 between January 2006 and April 2016:
