

IMPORTANT SAFETY RECALL

September 21, 2016

**This notice applies to your vehicle;
The VINs are listed on the back of this page**

Subject: Safety Recall 816-D Tire/Rim Inflation Label
NHTSA # 16V-632
EXPIRATION DATE: NONE
816-D - 1US
USA Customer
USA Address
USA City, State, Zip

Dear Peterbilt Customer,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Peterbilt Motors Company has decided that a non-compliance which relates to motor vehicle safety exists in vehicles built between April 18, 2012 and June 29, 2012. The affected vehicles may be equipped with a certification label that has incorrect gross axle weight rating (GAWR) and gross vehicle weight rating (GVWR) information. As such, these vehicles fail to comply with the requirements of 49 CFR Part 567, "Certification."

Incorrect GAWR and GVWR information can result in the vehicle being overloaded, increasing the risk of a crash.

The problem is...	Incorrect GVWR/GAWR data on certification label
Correction...	Remove incorrect label and install correct label
What you must do ...	Verify the VIN number on the label(s) match your vehicle VIN number and then place correct label(s) on your vehicle as required per the instructions

Peterbilt has initiated a recall to remedy the non-compliance free of charge. Please contact your nearest Peterbilt dealer. To find your nearest Peterbilt dealer, please visit Dealer Locator at www.Peterbilt.com. This repair should take up to 0.5 hours labor to affix a new label, and will be performed at no charge to you. If you had this repair performed before you received this letter, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall

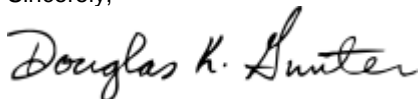

If you require further information about this recall, reimbursement of a pre-notification remedy associated with this recall or experience any difficulty in making arrangements for this repair, please contact: Peterbilt Motors Company, 1700 Woodbrook St. Denton, TX 76205, Attn: Quality Services Department, phone 940-591-4220.

If you conclude that Peterbilt Motors Company has not enabled you to remedy this defect in reasonable time and without charge, you may submit a complaint to: Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, S.E., Washington, DC 20590, or call the toll free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>

Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days. If you no longer own this vehicle, we would appreciate your advising us of the new owner if you know their name. The enclosed card may be used for this purpose.

We regret any inconvenience that this work may cause you and appreciate your cooperation in this matter.

Sincerely,

Doug Gunter
Director of Warranty
Peterbilt Motors Company

Note regarding tire and rim label data:

Given that there are multiple combinations of tire size, rim size and inflation pressures that could be used for a given load rating (GAWR – Gross Axle Weight Rating) it is not practical for Peterbilt Motors Company to print the exact component combination on the Tire & Rim Label to match each vehicle manufactured. Therefore, Peterbilt Motors Company provides and installs Tire & Rim Labels in accordance with FMVSS 120-5.3.1 and 120-5.3.2 which state(s):

- S5.3.1 Tires. The size designation (not necessarily for the tires on the vehicle) and the recommended cold inflation pressure for those tires such that the sum of the load ratings of the tires on each axle (when the tires' load carrying capacity at the specified pressure is reduced by dividing by 1.10, in the case of a tire subject to FMVSS No. 109) is appropriate for the GAWR as calculated in accordance with S5.1.2.
- S5.3.2 Rims. The size designation and, if applicable, the type designation of Rims (not necessarily those on the vehicle) appropriate for those tires.

Tire & Rim Labels on Peterbilt vehicles should be used as a reference for maximum GVWR and GAWR only. Tire size, rim size and inflation pressure designated on the label is a representative example that is suitable for the GAWR indicated (and is not required to match components on the vehicle) and is NOT a recommendation for tire pressures to be used over the road. It is the customer's responsibility to consult component manufacturer recommendations for the specific componentry on the vehicle.
