**NHTSA Recall 16V-636**

Dear Nissan Maxima Owner:

This second notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Nissan has decided that a defect which relates to motor vehicle safety exists in some Model Year 2016-2017 Nissan Maxima vehicles. Our records indicate that you own or lease the Nissan vehicle identified by the VIN on the inside of this notice.

#### Reason for Recall

Nissan previously sent you a letter explaining that your vehicle is equipped with an Antilock Brake System (ABS). In certain vehicles affected by this recall, the ABS actuator may leak brake fluid. If this occurs, the ABS warning lamp will illuminate and remain continuously illuminated on the instrument panel. However, the leak can create an electrical short and may lead to a fire.

#### What Nissan Will Do

Parts are now available to repair your vehicle. Your Nissan dealer will inspect the serial number on your ABS actuator. If it is affected, your dealer will replace the ABS actuator with a new one at no cost to you. If a replacement is necessary, the repair will be free of charge and should take about three (3) hours to complete. However, your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

#### What You Should Do *Qué Debes Hacer*

Contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. Please bring this notice with you when you keep your service appointment.
