

## **IMPORTANT SAFETY RECALL**

**S76 / NHTSA 16V-734**

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxx).

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain **2016 and 2017 model year Jeep® Wrangler vehicles**.

***The problem is...*** The front impact sensor wire(s) on your vehicle may become detached during a crash event before the “impact signal” is recorded by the Occupant Restraint Controller (ORC). Vehicles may experience no airbag or pretensioner deployment in certain crash events where airbag or pretensioner deployment is expected. Failure to deploy the airbags or pretensioners when required during a crash event could increase the risk of injury or death to front seat occupants.

***What your dealer will do...*** FCA will repair your vehicle free of charge. To do this, your dealer will modify the existing wire harness then route and secure the wire harness to a new location. The work will take about 2 hours to complete. However, additional time may be necessary depending on service schedules.

***What you must do to ensure your safety...*** Simply contact your Chrysler, Jeep, Dodge or RAM dealer right away to schedule a service appointment. Ask the dealer to hold the parts for your vehicle or to order them before your appointment. **Please bring this letter with you to your dealer.**

***If you need help...*** If you have questions or concerns which your dealer is unable to resolve, please contact the FCA Group Recall Assistance Center at either **fcarecalls.com** or 1-800-853-1403.
