This notice applies to your vehicle, \_\_\_\_\_.

Date: March 2019

Dear FIRSTNAME LASTNAME,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

**Reason for notice:** Mitsubishi Motors North America, Inc. (MMNA) has decided that a defect which relates to motor vehicle safety exists in certain 2011, 2012, and 2016 Outlander Sport vehicles. The supplier may have applied insufficient anti-corrosion treatment to the outer tube of the lift gate gas spring. The lift gate gas spring provides lifting assistance for the lift gate and operates utilizing high pressure gas. If insufficient anti-corrosion coating is applied to the outer tube of the gas spring, it is possible for the outer tube to corrode over time due to salt and water penetration. If this occurs, it is possible for the gas spring to rapidly lose pressure. If the gas spring rapidly loses pressure, the lift gate may fall down suddenly, causing injury.

**What you should do:** Please contact your local Authorized Mitsubishi Motors dealer and schedule an appointment to have the recall remedy performed on your vehicle. When you bring your vehicle in, please show the dealer this letter. (If you misplace this letter, the dealer will still perform this repair to your vehicle, free of charge.)

**What your dealer will do:** The dealership will replace the lift gate gas springs with newly manufactured ones, free of charge.

**How long will it take?** The time needed for the replacement of the lift gate gas springs is **1 hour**. The dealer may need your vehicle for a longer period of time, but every effort will be made to minimize your inconvenience.
