**This notice applies to your vehicle: VIN**

Dear Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. DRV suites (DRV) has decided that a defect which relates to motor vehicle safety exists in certain DRV travel trailers manufactured from April 29, 2016 to November 28, 2016. We apologize for any inconvenience this action may cause you, however your safety and continued satisfaction are of the utmost importance to us.

***Reason for  
this recall***

On certain Full House fifth wheel trailers the rear cargo door on these vehicles may have been manufactured with defective hinge assemblies. The puddle weld securing the hinge pin to the hinge plate is inadequate and can fail. If the door were to be opened with a failed hinge assembly, the door would come down with more force than normal. The door assembly could hit a person standing near the door and cause personal injury.

***What we  
will do***

DRV will have an authorized dealer or repair center inspect the hinge and if the weld is insufficient the hinge will be replaced. This defect will be corrected at no expense to you, the owner.

you to do***
