Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2014 Mercedes-Benz CLA-Class (117 platform) vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

**What is the CONCERN?**

Certain Model Year 2014 CLA-Class vehicles have a fitting that connects the vacuum line to the brake booster, which may break, causing increased brake force to apply the brakes. If the vehicle unexpectedly needs increased pressure on the brake pedal to apply the brakes, there would be an increased risk of a crash.

**What will your DEALER DO?**

An authorized Mercedes-Benz dealer will replace the vacuum line on the affected vehicles. This service will be provided free of charge. We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **30 minutes**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

**What should YOU DO?**

To find the most convenient authorized Mercedes-Benz dealer from your smartphone, scan the QR code to the left.
