NHTSA Recall 16V-932

IMPORTANT SAFETY RECALL

This notice applies to your vehicle: 9999999999999999

Dear JOHN Q SAMPLE:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

WHAT IS THE REASON FOR THIS NOTICE?

Honda has decided that certain 2016 model year Odyssey vehicles fail to conform to the requirements of Federal Motor Vehicle Safety Standard No. 207; Seating systems. The horizontal position adjustment bar that controls the slide function for the second row center seat may stay in the unlocked position and allow the seat to slide forward or rearward without warning. An unlocked second row center seat may increase the risk of injury to the seat occupant in the event of a crash.

WHAT WILL HONDA DO?

The dealer will inspect the slide function for the second row center seat and repair or replace the horizontal position adjustment bar as necessary, free of charge.

WHAT SHOULD YOU DO?

Please call any authorized Honda dealer and make an appointment to have your vehicle repaired, at no charge to you. Once you make an appointment to repair your vehicle, be advised that the complete repair process may take approximately 30 minutes. However, your dealer can provide you with a better estimate of the overall time for this service visit, as it may be necessary to make your vehicle available for a longer period of time. If you are not the only driver of this vehicle, please advise all other drivers and passengers of this important information!

Until this repair has been performed on your vehicle, Honda recommends that you slide the seat into the desired position and lock the seat into a fixed position by pushing down on the horizontal position adjustment bar.

CHECK YOUR VEHICLE FOR OPEN RECALLS

You can check your vehicle's eligibility for repair under this or any other recall. Please access the **Honda Recall Lookup** tool at www.recalls.honda.com and enter your Vehicle Identification Number (VIN).
