What is the issue? Affected vehicles have airbag and/or pretensioner igniter(s) manufactured by Autoliv. The affected igniter(s) may not meet manufacturing specifications. In a crash where airbag and/or pretensioner deployment is needed, an igniter may not deploy, increasing the risk of injury.

What will we do? To help correct this defect, your authorized Audi dealer will replace the airbags and/or pretensioners in the vehicle that have affected igniters. This work will take up to one day to complete and will be performed for you free of charge.

What should you do? Please call your authorized Audi dealer without delay to schedule this recall repair. Your dealer must special order the parts needed to complete this recall repair on your vehicle. Your dealer will ensure that the correct parts are available at the dealership when you arrive for your scheduled appointment.

Reimbursement of Expenses If you have previously paid for repairs relating to the condition described in this letter, the enclosed form explains how to request reimbursement. We would be pleased to review your reimbursement request.
