SUBJECT

Delivery Stop – Electronic Control Unit for Air Bags

MODEL

G12 (7 Series)

SITUATION

A Delivery Stop has been issued on G12 vehicles produced from July 7, 2015 to December 11, 2015. In these vehicles an electronic control unit for the air bags might malfunction in very rare instances. In such instances, an “air bag warning” light will illuminate in the instrument cluster.

This bulletin will be updated by next week.

Affected vehicles can be identified with a “Vehicle Comment” in DCS Warranty Vehicle Inquiry or ISPA Light with the description:

“A Delivery Stop has been issued for this vehicle. Dealers must ensure that all Campaigns are completed before retail delivery to the customer. See Service Information Bulletin B65 11 16.”
