DCSnet Message  
**Urgent**

**Subject: Delivery Stop – Electronic Control Unit for Air Bags**

**Message Recipients: General Managers, Sales Managers, Service and Parts Managers, Service Managers, Shop Foremen, Service Technicians**

**Message Text:**

A Delivery Stop has been issued on 7 Series (G12) vehicles produced from July 7, 2015 to December 11, 2015. In these vehicles, an electronic control unit for the air bags might malfunction in very rare instances. In such instances, an "air bag warning" light will illuminate in the instrument cluster. Attached is Service Information Bulletin B65 11 16 for more details.

**Please be reminded that it is a violation of the National Traffic and Motor Vehicle Safety Act for you to sell, lease or deliver any new vehicle subject to this notification until the delivery stop repair has been performed. This means that centers may not legally deliver new motor vehicles to a consumer until it is fixed or use/sell replacement equipment/parts subject to a delivery stop. Note also that substantial civil penalties apply to violations of this law.**

**Also, you should not sell, lease or deliver any Certified Pre-Owned or used vehicles subject to a delivery stop until the repair is completed.**

Sincerely, Eugene Aton, Technical Service
