

16-04-011BUG

Generator

Applicability:
Bugatti Veyron

VIN range :
Contact your Bugatti regional service manager

Market Region:
All

Introduction:
Corrosion of the B+ Cable and connection to the generator.

Description:
In extreme conditions, cable protection could be damaged.
Installation of latest level generator and improved B+ cable to avoid water ingress and therefore remove the risk of corrosion.

This repair can be done by any Bugatti Service Partner of Excellence or assisted by the factory directly.

Warning:

Comply with the vehicle preparation measures for maintenance and repair procedures. Refer to the official Workshop Manual, Page 18 "General instructions about the vehicle"

If in any doubt regarding this procedure, contact your Bugatti regional service manager.

16-04-011BUG

Generator

Procedure:

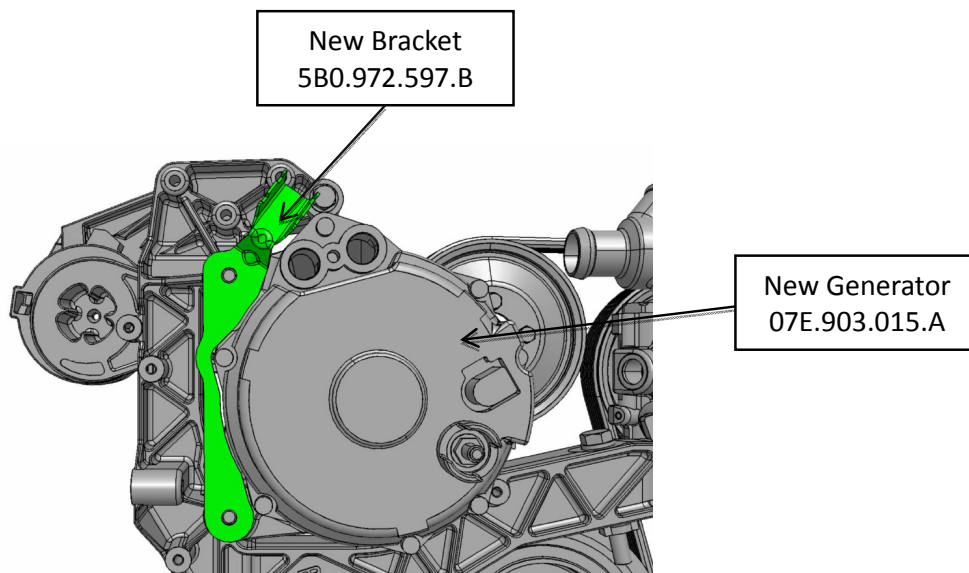

The main parts requiring replacement: *Generator / Generator wiring Harness B+ / Bracket.*
