<John>, if your vehicle is involved in a collision, the Supplemental Restraint System (SRS) Control Unit in your <Year><Model> may cause your airbags **NOT** to deploy, resulting in serious injury.

<John>, si su vehículo se involucra en una colisión, la unidad de control del sistema de protección suplementaria (SRS) en su <Year><Model> puede ocasionar que sus bolsas de aire **NO** se desplieguen, ocasionando lesiones serias.

Being injured in a collision is usually the last thing on your mind when you are driving your vehicle. By not scheduling an appointment with your Honda dealer for this **URGENT SAFETY RECALL**, you are putting your family, friends and yourself at risk.

Despite our previous attempts to contact you, our records still indicate your <Year><Model> has not been fixed. An internal component in the Supplemental Restraint System (SRS) Control Unit may corrode and cause it to fail. If the SRS Control Unit fails, your airbags may **NOT** deploy when the vehicle is involved in a crash. **Without and operating airbag, your chances of serious injury increase dramatically.**
